For The Precautions
Against Covid-19**

The guideline for the precautions against covid-19

Dear guests,

Welcome to our Yetkin Club Hotel

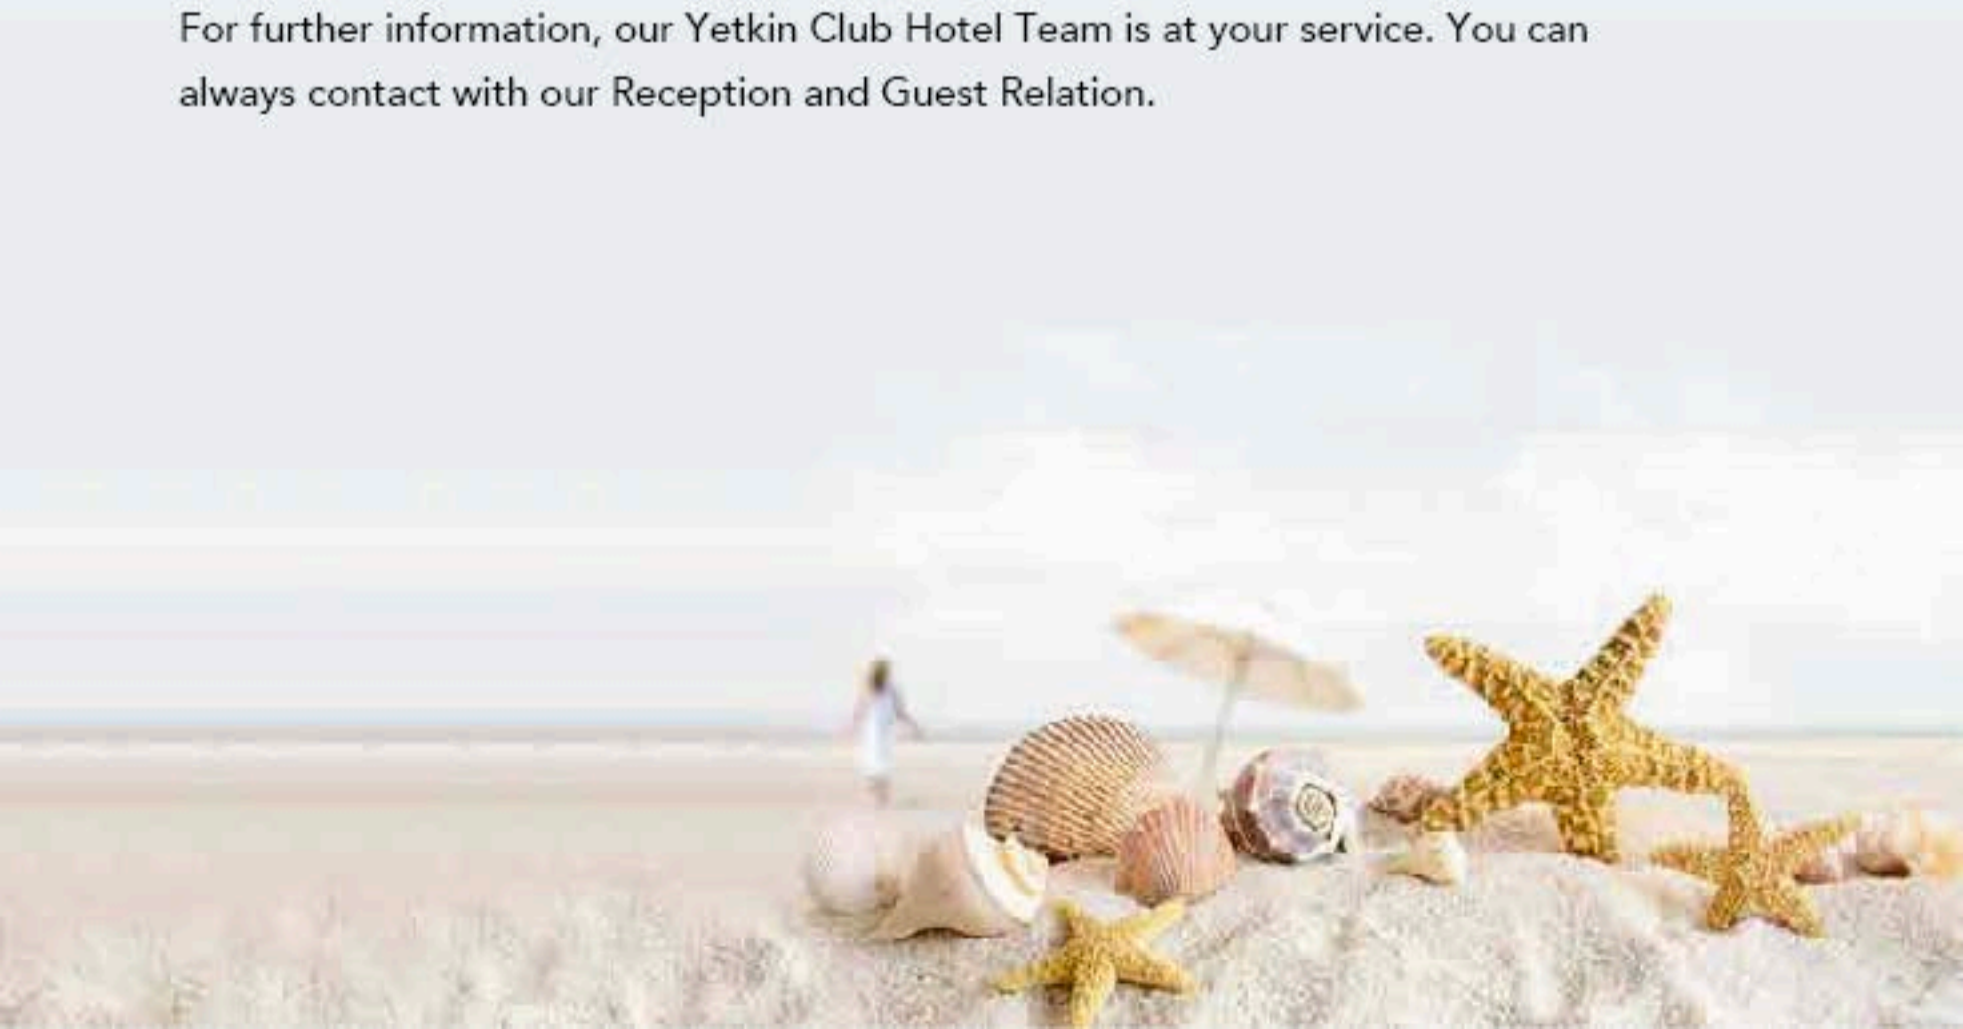

We are delighted to welcome you to our Yetkin Club Hotel.

The health and safety of you and your loved ones are always our top priority. We have prepared conscientiously and very carefully so that you will feel comfortable staying with us despite the current circumstances.

With this guide, we would like to outline the hygiene and service measures that we conscientiously carry out within our club complex in accordance with the specifications of the Turkish Ministry of Health and Tourism.

We would also like to provide you additional precautionary information's that we have taken against Covid-19 pandemic, as well as some important rules. We ask for your important support.

For further information, our Yetkin Club Hotel Team is at your service. You can always contact with our Reception and Guest Relation.

The guideline for the precautions against covid-19

ARRIVAL AND RECEPTION IN YETKİN CLUB OTEL

At the entrance to the reception, which you will enter first on your arrival, your body temperature is measured with contactless clinical thermometers and the data is recorded properly.

CHECK-IN VE CHECK-OUT

At our Reception your check-in process will be done as quickly as possible and our reception team will be equipped with the necessary personal protective masks. By the check-in you will fill out a check-in card, a Covid-19 declaration with rules and questions about your health status over the past 14 days.

After completing the registration process, you will be given your specially disinfected room key and our bellboy will take you to your room if you wish.

For check-out, again if you want, your luggage will be taken by our bellboys and will be disinfected. For the check-out process you only need to go to the Reception to finish the process which will be done quickly by our receptionist. It is important for us you to follow the rules until the very end of your vacation in order to have a safe and nice holiday.

The guideline for the precautions against covid-19

ROOM

We have taken the following measures for you and your loved ones in the rooms:

We use an adequate amount of cleaning and disinfectants approved by the Turkish Ministry of Health for room cleaning.

Our housekeeping team has received special training on these measures. The housekeeping team uses masks and gloves to clean and disinfect your room.

All textiles such as towels and bed linen in your room are washed at the necessary temperatures.

All drinks intended for the minibar are wiped and disinfected before the minibar is refilled.

After each departure, the cleaning and disinfection processes are repeated for the next guests.

RESTAURANTS, SNACKBAR AND BARS

We also offer you all food and drinks in our Restaurant, Snack Bar and Bars in a healthy and hygienic way. The following measures are taken:

Hand disinfection dispensers are available at the entrances to the Restaurant, Snack Bar and Bars.

The tables and chairs in the Restaurant, Snack Bar and Bars are arranged by us according to the social distance rules.

Our trained service team disinfects the tables and chairs after each use and wear appropriate protective masks during communicating with you. All the buffet areas are equipped with protective barriers to minimize any risk.

The food presented at our buffets in our Restaurant are served by our professional kitchen team for you via the protective barriers.

All our storage, production and preparation areas of our Restaurant, the Snack Bar and Bars, are cleaned according to the cleaning and disinfection guidelines and disinfected using the safest and most hygienic methods.

Our water and food quality is continuously monitored using laboratory analyzes. Samples are taken from our daily production and kept under the specified conditions.

GENERAL SPACES

We have taken the following measures and regulations for the common areas so that you can calm down and stay safe outside of your room:

All points in the common areas of our facility have been rearranged according to the rules of social distance. Disinfection stands are set up in all areas.

The cleaning and disinfection of all common areas is carried out by our trained team and with the use of necessary protective equipment. All surfaces are disinfected and cleaned regularly.

All toilets in the common areas are equipped with hand disinfectants. They are cleaned and disinfected with products specially selected for sanitary areas. You will find paper towel dispensers with sensors in all sanitary areas.

All areas and buildings are regularly ventilated and the cleaning and disinfection times per day have been increased.

The elevators are regularly cleaned and disinfected. The social distance rules are also applied in the elevators, which is why only families can use the elevator at the same time.

The guideline for the precautions against covid-19

BEACH AND POOLS

The health and hygiene measures on our beach and pools, where you will enjoy your well-deserved vacation, is a high priority for us. The measures for these areas are:

As every year, all of our pools and waters are regularly checked, measured and monitored by our specially trained team.

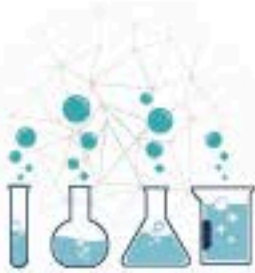

The water samples are controlled regularly by the responsible authorities and a recognized laboratory approved by the Turkish Ministry of Health.

We ask you to take a shower before using the pools or the please do check the pool rules before using them which are displayed around the pool areas.

The distances between the sun loungers on the beach, at the pool and in the area are determined according to the social distance rules.

Please keep your social distance in the areas around the pools, the and in the sea.

OUR EMPLOYEES

The health and safety of our employees are just as important to us as that of our guests. For these reasons, we have taken the following measures for our employees:

The current state of health of all of our employees is regularly checked, observed and documented. In the event of signs of the disease Covid-19, the necessary examinations will be carried out immediately by our doctor and necessary measures will be taken.

At the entrances and exits of the Club complex, the body temperature of all our employees, suppliers and service providers are measured using a contactless clinical thermometer and properly recorded.

The transport vehicles, the work areas, the communal areas and the offices are structured according to the rules of social distance.

The cleaning and disinfection measures are increased and the necessary protective equipment has been made available.

All of our employees have received appropriate intensive training on Covid-19. They continue to receive these routinely.

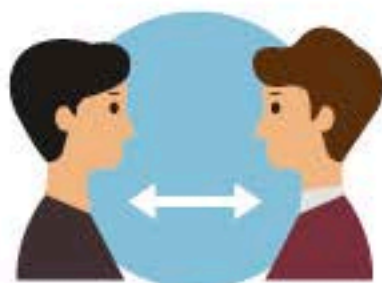

The guideline for the precautions against covid-19

GENERAL INFORMATION

In all areas of the Club complex you will find markings and / or signs with the requirement of social distance. We ask you to observe these markings and instructions.

Please take the necessary precautions when contacting other people who do not belong to your family / relatives and keep the necessary social distance.

During this time, please avoid shaking hands and hugs and use your elbow or a cloth when sneezing or coughing.

If you have a chronic illness we ask you to protect yourself and take appropriate protective measures if necessary.

Please use the designated waste bins to dispose of the masks and gloves. In this current situation, we ask you to take special care of your children to avoid any health problems since the Covid-19 illness can be dangerous also for young people.

If you or your loved ones do not feel good, we ask you to stay in your room and to contact the receptionist by phone in the room. Our health care service is available at all times.
